The Beauty Bar

A HANDS-ON BEAUTY EXPERIENCE

The Beauty Bar is Mojo Spa's guided beauty experience, where guests learn what their skin needs from a Mojo Spa beauty expert to get their own custom facial serum and make a custom body scrub with their own hands. You can choose to have it as a pop-up at your office, or we can host it at our location in Wicker Park, Chicago. For employees, clients, or partners you want to give a unique experience.

THE EXPERIENCE

A Scrub Made Together

Guests build a custom body scrub from scratch at the table, choosing the fragrance, additive, and booster that suit their skin and preferred scent. Fun to make as a group, and everyone takes theirs home.

A Customized Serum

Every guest's facial serum is tailored for their skin. Their name is handwritten on the bottle, and a personal note from our founder, Amanda, explains why each part of the formula was chosen for them.

Beauty Education

A Mojo Spa beauty expert leads a seminar on regenerative beauty and how to reach their skincare goals, and guides them through how to use their serum in a mini crystal facial with their serum's crystal.

THREE WAYS TO BOOK

The Workshop – Guests make a custom body scrub, then attend the beauty seminar with a demonstration of the serums, highlighters, and mini crystal facial, and leave with their scrub and facial serum. About one and a half to two hours.

The Seminar – Guests attend the beauty seminar, on regenerative beauty, with a demonstration of the serums, highlighters, and mini crystal facial, and everyone leaves with their custom facial serum. 45 minutes to one hour.

The Gift – A custom facial serum made for each guest, with its energized crystal, a personalized product profile, and multimedia demonstrations for the mini crystal facial. No event.

A SCRUB MADE TOGETHER

The room is set for your guests, each with a mixing bowl, a bamboo spoon, a glove, their own scrub card, and Mojo Spa's team in magenta aprons hosting the tables. A Mojo Spa beauty expert cues each step, so the whole room builds together, choosing a fragrance (Zen, Comfort, Grounding, or Wake Up), an additive (green tea, oatmeal, calendula, or pink Himalayan salt), and a booster (Glow or Hydration), then adding the natural sugar base, mixing, and packing a full 8 oz jar to take home. Thirty-two possible scrubs, every guest's their own. Along the way, guests learn what each ingredient does for their skin and how to use their scrub at home.

A CUSTOMIZED SERUM

Every serum begins with the guest, their skin type, their skin concerns, what they use today, and the goals they have for their skin. Mojo Spa builds the formula from those answers, and what the guest tells us genuinely shapes it. Each one is handcrafted at Mojo Spa, the guest's name handwritten on the bottle, and comes with the affirmation they chose, its energized crystal, and a personal note from Amanda on why each part was chosen.

Mojo Spa chooses the base, a lightweight day konjac gel or a deeply hydrating night coconut oil, the key ingredient, an infused oil that is the closest match to the guest's concern, and the essential oil blend, chosen last for what the rest leaves uncovered. The guest chooses a day or night formula, their booster, and their highlighter, for the perfect kind of glow. Over seventeen thousand possible serums, each one matched to the guest's skin.

> *I know that you put pore refinement as your primary skin care goal, but I wanted to be able to maximize your facial serum for all the other issues you identified, such as dryness, oiliness, scarring and fine lines, and to fit your minimal skincare routine of a cleanser and a sunscreen.*
>
> *Red Clover Radiance is the key ingredient I chose for exactly that reason, since it works across texture and the marks left behind rather than at any one thing. Featherweight is your base because it hydrates without adding oil, so your combination skin has no reason to swing either way, and the Complexion Cocktail blend covers tone, dullness and glow together, which is what lets one serum reach your pore refinement goal and the rest of your list at the same time…*

BEAUTY EDUCATION

The beauty seminar, *Your Skin, Your Glow*, is led by a Mojo Spa beauty expert, with every guest seated and their own serum in front of them. It explores regenerative beauty, which works with your skin, through three anchors: your skin barrier, your skin type, your goals. Then it turns to their customized facial serum: the nine boosters and what each one does, and the five highlighters and the color theory behind them, so every guest understands what is in their bottle and why. It closes with the mini crystal facial, which every guest does on their own face with the crystal that comes with their serum. Slow and small is what makes a bottle last: one drop per side, two drops a use, four to six months of serum.
